<tbody>
<tr>
<td><strong>Strong Evidence</strong></td>
<td>Demonstrates a statistically significant effect on improving outcomes based on experimental studies.</td>
<td>At least one well-designed and well-implemented experimental study.</td>
</tr>
<tr>
<td><strong>Moderate Evidence</strong></td>
<td>Demonstrates a statistically significant effect on outcomes based on quasi-experimental studies.</td>
<td>At least one well-designed and well-implemented quasi-experimental study.</td>
</tr>
<tr>
<td><strong>Promising Evidence</strong></td>
<td>Demonstrates a significant effect on outcomes based on correlational studies with controls for selection bias.</td>
<td>At least one well-designed and well-implemented correlational study with statistical controls for selection bias.</td>
</tr>
<tr>
<td><strong>Rationale-Based Evidence</strong></td>
<td>Shows potential for improving outcomes based on high-quality research findings or positive evaluation.</td>
<td>Demonstrates a rationale based on research findings or positive evaluation. Includes ongoing efforts to examine the effects.</td>

Design Activities Utilizing Data

1. Creating a Welcoming, Safe, and Inclusive Environment:
   • **Data Used:** Student demographics, school climate surveys, and safety assessments.
   • **Activity:** Develop cultural competency workshops and events that celebrate diversity and promote inclusivity. For example, host cultural heritage celebrations, diversity panels, or language exchange programs to foster understanding and appreciation among students from different backgrounds. Conduct safety audits and drills to ensure students feel secure and supported in their learning environment.

2. Supporting Family Engagement and Providing Family Supports:
   • **Data Used:** Family engagement surveys, needs assessments, and input from community meetings.
   • **Activity:** Organize family workshops and support groups based on identified needs and preferences. Offer sessions on topics such as parenting skills, academic support strategies, and navigating community resources. Provide opportunities for families to participate in decision-making processes and contribute to program planning through advisory committees or parent councils.

3. Promoting Strong Connections Between Schools and 21st CCLC Programs:
   • **Data Used:** Student demographics, family engagement surveys, and communication preferences.
   • **Activity:** Develop outreach strategies tailored to the cultural backgrounds and communication preferences of students and families. Utilize multiple channels, such as social media, newsletters, and parent-teacher conferences, to keep families informed and engaged. Establish regular communication channels between school staff and 21st CCLC program coordinators to ensure seamless coordination and collaboration.

4. Implementing Trauma-Informed Practices:
   • **Data Used:** Trauma prevalence data, student behavior observations, and mental health assessments.
   • **Activity:** Provide training and resources for staff on trauma-informed approaches and strategies. Create safe spaces within the school environment where students feel comfortable expressing their emotions and seeking support. Offer counseling services, mindfulness activities, and peer support groups to help students cope with trauma and build resilience.

5. Establishing Mentoring Programs Built on Strong Relationships:
   • **Data Used:** Family engagement surveys, student academic performance data, and mentorship program evaluations.
   • **Activity:** Engage families in the mentoring process by soliciting their input and involvement. Offer parent-mentor training sessions to educate families about the benefits of mentoring and how they can support their children’s mentoring relationships. Facilitate regular communication between mentors, mentees, and families to ensure alignment and continuity of support.
6. Providing Relevant and Engaging Learning Experiences:
   • **Data Used:** Academic performance data, student interest surveys, and curriculum assessments.
   • **Activity:** Tailor academic enrichment activities to address specific learning gaps and academic challenges identified through data analysis. Offer tutoring sessions, homework assistance programs, and skill-building workshops in subjects where students may need additional support. Incorporate project-based learning, hands-on activities, and real-world applications to make learning engaging and relevant for students.
